| HIGH[CrO ₂] (IEC TYPE II) | HIGH[CrO ₂] | 70µs | 90min. (2 × 45) |

• Dynamic clarity high frequency sound

Using Maxell Fine Epitaxial magnetic particles, high frequency output is improved by 1 dB and dynamic range by 1.5 dB. At the same time, noise is lowered by 0.5 dB. (Compared with our UDS-II tape)

• Silent Cassette mechanism

Combining our exclusive low-resonance cassette shell and S-TA slip sheet, this unique cassette mechanism assures consistent tape travel and minimum noise with long life.

MAXELL FULL WARRANTY We warrant to the user of this product that it is free from defective materials and workmanship. If the product proves unsatisfactory, it will be replaced if returned to Maxell America, Inc., 1400 Parker Road, Conyers, Georgia 30207. *Manufacturer, distributor and seller shall not be liable for consequential commercial damages.*

Made in Japan

Maxell Cassette Tape Features

In the cassette Maxell adapts the unique 4-function leader to incorporate the cleaning properties of its original head cleaning tape. The special finish assures continuous cleaning without fear of head wear.

- ① Non-abrasive head cleaning leader tape.
- ② Indicates A or B side ready to play.
- ③ Arrows indicate direction of tape travel.
- ④ 5-second cueing line.

Handling/Storage Instructions

- To prevent the tape from developing trouble in travel, take up any slack in the cassette by using a pencil stub as shown in the illustration.
- Break off the breakout lugs from the cassette to prevent the recorded material from accidental erasing.
- To assure smooth tape travel and high quality recording/playback, periodical cleaning of the heads and capstans is recommended.
- Store the cassettes in their plastic cases after use. During storage, keep them from heat, humidity, magnetic fields and dust.
